

How to Draw a Realistic Sunflower

8-Step Botanical Line Art Practice Worksheet

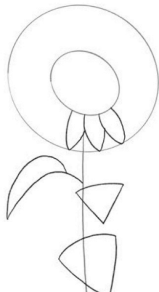

PART 1: STEP-BY-STEP DRAWING GUIDE

STEP 1

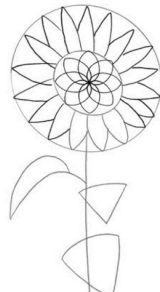

Concentric Armature: Lightly sketch outer & inner seed circles.

STEP 2

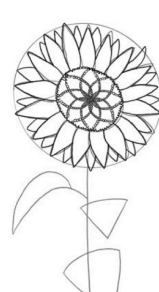

First Ray Petals: Sketch lower discoid petals and leaf foundations.

STEP 3

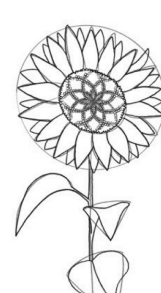

Complete Petal Ring: Draw full outer petals and center petals.

STEP 4

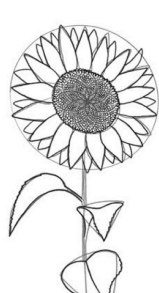

Stippled Florets: Add bead florets along petal bases.

STEP 5

Stem & Foliage: Outline sturdy stalk, detail stems and leaves.

STEP 6

Spiral Seed Head: Texture the center disc with dense spiral.

STEP 7

Leaf Venation: Add curved leaf veins, serrated margins & detail.

STEP 8

Botanical Ink Art: Ink fine petal outlines, leaf shading & stem.

PART 2: YOUR PRACTICE SKETCHPAD — Draw Your Own Botanical Sunflower

 **MY MASTERPIECE** (Draw with pencil first, then trace with pen or marker)

 **Pro Tip:** Botanical Pro-Tip: The seed head follows the Fibonacci spiral sequence. Draw arcs lightly before stippling!
